

ALFORD CUSTOM BUILDERS

LOGO GUIDELINES

THE VISUAL STANDARD FOR
OUR BRAND IDENTITY

VERSION 1.0 | SEPT 2026

LUXURY PERSONALIZED

INTRODUCTION

A strong brand is built on consistency. These logo guidelines establish the standards for using the **Alford Custom Builders** identity across print, digital, signage, apparel, and other brand applications. Following these guidelines ensures the logo remains recognizable, balanced, and visually consistent while protecting the craftsmanship and premium positioning of the **Alford Custom Builders** brand.

PRIMARY LOGOS

The primary logos are the most important expressions of the **Alford Custom Builders** brand. They should be used whenever space and application allow, providing a consistent and recognizable representation of the company. Approved logo configurations should never be altered, rearranged, stretched, or combined with unapproved elements.

ICON

The Alford Custom Builders icon is a simplified expression of the brand designed for applications where the full logo is not practical. It can be used independently on social media, signage, apparel, watermark, promotional materials, architectural details, and other small-scale applications. The icon should maintain the same proportions and visual integrity as the primary logo.

UNITS OF MEASUREMENT

The logo is constructed using a defined system of proportional measurements to maintain consistency between its individual elements. These measurements establish the relationships between the icon, typography, spacing, and other components of the mark. The logo should always be reproduced proportionally and never manually altered or reconstructed.

CLEAR SPACE

Clear space provides the logo with room to breathe and prevents surrounding elements from competing with or diminishing its impact. A minimum amount of clear space should always be maintained around the logo, free from typography, photography, graphics, borders, or other visual elements. When possible, additional space is encouraged.

ORGANIC #3F422E

A deep, earthy tone that represents authenticity, strength, and a grounded connection to nature, giving the brand a confident and organic foundation.

NATURAL #9F886F

A warm, understated neutral that communicates simplicity, balance, and authenticity while reinforcing the brand's connection to the natural world.

BLANKET #D4C7B4

A soft, warm neutral that brings comfort, simplicity, and approachability to the palette while allowing the primary colors to stand out.

APRICOT #D78B30

A warm, uplifting tone that brings energy, optimism, and approachability to the palette, adding a subtle sense of warmth and personality.

COLORS

Color is an important part of creating a distinctive and recognizable **Alford Custom Builders** identity. The approved brand palette should be used consistently across all applications. Primary colors should be used for the logo and major brand communications, while secondary colors may provide supporting accents and flexibility. Never substitute unapproved colors or alter the approved color values.

TYPOGRAPHY

Typography plays an important role in establishing the character and sophistication of the **Alford Custom Builders** brand. The approved typefaces and hierarchy should be used consistently across communications to create a cohesive visual language. Consistent typography helps reinforce the brand's attention to detail and premium craftsmanship.

SEMPPLICITA PRO

Aa Bb Cc Dd Ee Ff Gg Hh Ii Jj
Kk Ll Mm Nn Oo Pp Qq Rr Ss
Tt Uu Vv Ww Xx Yy Zz
1234567890~!@#\$%^&*()_+

Semplicita Pro is the headline font and should be used for primary titles, major callouts, and high-impact messaging where strong visibility and bold presence are required. Also great for body copy.

Adobe Garamond Pro

Kk Ll Mm Nn Oo Pp Qq Rr Ss
Tt Uu Vv Ww Xx Yy Zz
1234567890~!@#\$%^&*()_+

Adobe Garamond Pro serves as body copy, the subhead font, supporting headlines by introducing section titles, secondary messaging, and emphasized statements while maintaining a rugged, industrial tone that aligns with the brand's work-focused identity.

LOGO PLACEMENT

Proper logo placement ensures the Alford Custom Builders identity remains visible, balanced, and intentional. Logos should be positioned with sufficient surrounding space and placed where they have appropriate contrast against their background. Consider the scale, visual hierarchy, and context of each application before selecting a logo configuration.

APPAREL

Apparel provides an opportunity to extend the Alford Custom Builders brand into a more casual, tangible application while maintaining a polished and professional appearance. The Icon Only mark is ideal for smaller placements such as hats, left-chest embroidery, and workwear, while the Primary Logo can be used for larger applications on shirts, jackets, and outerwear. Select the appropriate logo based on the size and production method, and always use approved artwork, colors, and proportions. For embroidery, simplified logo versions may be preferred to preserve clarity and legibility at smaller sizes.

FILE FORMATS & USAGE

The Alford Custom Builders logo should always be reproduced from approved master artwork. Vector formats such as AI, and SVG should be used whenever possible for signage, print, embroidery, and large-scale applications. PDF, PNG, and JPG files may be used for appropriate digital and office applications. Do not recreate, trace, distort, rotate, recolor, or otherwise modify the logo.

CONTACT & RESOURCES

All approved Alford Custom Builders brand assets should be maintained in a centralized location to ensure the most current versions are being used. When questions arise regarding logo usage, colors, typography, or other brand applications, refer to these guidelines or contact the designated brand representative before making modifications. Consistent stewardship of the brand helps ensure Alford Custom Builders is represented with the same level of care and craftsmanship as the homes it builds.
